YogeAI Sample Acceptable Use Policy

Version: 1.0

Permitted use

Users may use the service for lawful business productivity, document analysis, and internal knowledge discovery.

Prohibited use

Users must not attempt unauthorized access, upload malware, disrupt service availability, or use the service to violate applicable law.

Sensitive information

Users should not upload passwords, private keys, payment card data, or personal information unless the service owner has explicitly approved the use case and implemented appropriate safeguards.

Reporting

Suspected security issues should be reported to the service administrator. This sample policy does not define a response-time guarantee.

Important note

This is synthetic sample data created only for software testing.
