YogeAI Sample Service Level Agreement

Version: 1.0

Availability

The sample service target is 99.5% monthly availability, excluding announced maintenance windows.

Support response

Critical incidents receive an initial response within one hour. High-priority incidents receive an initial response within four business hours.

Maintenance

Planned maintenance should be announced at least 48 hours in advance.

Credits

This sample document does not define service credits or financial compensation. Do not infer a credit amount from the availability target.

Important note

This is synthetic sample data created only for software testing.
